

**Fig.1**

The diagram illustrates a network architecture. A motorcycle, labeled 204, is connected to a box labeled 'Proxy for motorcycle' (202). This proxy is connected to a vertical box labeled 'NETWORK' (112). The 'NETWORK' is connected to an 'Internet gateway' (118). The 'Internet gateway' is connected to the 'Internet' (120), which is in turn connected to an 'External server' (206). The entire system, from the proxy to the Internet gateway, is enclosed in a dashed rectangular box.
